

Brakes are one area in which vehicle owners simply cannot compromise. With ACDelco® Brakes, you can get the peace of mind that comes with parts that are expertly engineered, manufactured to stringent tolerances, thoroughly tested and backed by the ACDelco name. Choose from Advantage, Professional and GM Original Equipment Series brake products to meet your performance needs and budget.

WHEN TO CHANGE

Ask your Certified Service expert to inspect your vehicle's brakes if you experience the following signs of wear:

- Chirping, grinding or squeaking noises when braking
- Difficulty stopping the vehicle
- A low or sinking brake pedal
- Brake pedal pulsation (not to be confused with normal ABS operation)
- Vehicle pulls to the left or right when brakes are applied

ACDelco® ADVANTAGE BRAKE PADS

ACDelco Advantage Brakes feature the fit, form and function of premium aftermarket brakes at an economical price. They offer dependability, performance and great value without sacrificing important features and benefits. The ACDelco name means the quality is assured – from brake pads and shoes to drums and rotors, you can count on the Advantage series to deliver value every time.

ACDelco ADVANTAGE CERAMIC BRAKE PADS

Feature the fit, form and function of premium aftermarket brakes at an economical price. Tested to vehicle safety standards through industry-standard SAE tests J2430 and J2784, they offer dependability, performance and great value – without sacrificing important features and benefits.

- Ceramic, semi-metallic and organic formulas provide safety and reliability for a range of vehicle applications
- Basic shims, slots and chamfers help to diminish noise, vibration and braking harshness

ACDelco PROFESSIONAL BRAKE PADS*

ACDelco Professional premium aftermarket brake products mean no compromises and quality at a fair price. And with our warranty coverage, you will have the confidence and peace of mind that comes with owning ACDelco products.

ACDelco PROFESSIONAL CERAMIC BRAKE PADS

Engineered to help resist corrosion and premature wear and are the ideal premium aftermarket replacement for your GM and non-GM vehicle. Offer exceptional performance and include noise-dampening shims where applicable. Independently tested using SAE J2784 standards, these pads deliver the fit, form and function you expect from ACDelco. Durable ceramic formulation uses less metal, providing high-quality braking power in a quiet and low-dusting package.

- Tested to SAE J2784 for braking effectiveness, along with Noise/Vibration/Harshness (NVH) and durability/wear testing for assurance of quality
- Ceramic, semi-metallic and organic formulas provide safety and reliability for a range of vehicle applications
- Integrally molded – Friction material molded to backing plate for bond integrity

ORIGINAL EQUIPMENT BRAKE PADS

Get the GM quality you know and trust with ACDelco GM Original Equipment Brakes. Stay with the parts brand your GM vehicle came with and get peace of mind that the fit, form and function are up to the high standards and specifications of General Motors. ACDelco GM Original Equipment Brakes are engineered for virtually every make and model of GM car, light-duty truck and sport utility vehicle.

- **Integrally molded** – Friction material molded to backing plate for bond integrity
- **Premium shims, slots and chamfers** help to diminish noise, vibration and braking harshness
- **GM-recommended** replacement part for your GM vehicle's original factory component

Brakes are one area in which vehicle owners simply cannot compromise. With ACDelco® Brakes, you can get the peace of mind that comes with parts that are expertly engineered, manufactured to stringent tolerances, thoroughly tested and backed by the ACDelco name. Choose from Advantage, Professional and GM Original Equipment Series Brake products to meet your performance needs and budget. Trust ACDelco rotors, pads, drums and other brake components to help keep you and your loved ones safe.

WHEN TO CHANGE

Ask your Certified Service expert to inspect your vehicle's brakes if you experience the following signs of wear:

- Brake pedal pulsation (not to be confused with normal ABS operation)
- Squealing or grinding noises
- Low brake pedal height
- Vehicle pulls to the left or right when brakes are applied
- Visible ridges or deep grooves on the rotor surface

ACDelco® ADVANTAGE DISC BRAKE ROTORS*

ACDelco Advantage Disc Brake Rotors provide reliable vehicle braking power. An application-specific vane configuration offers greater safety and performance, dampens noise and vibration, and maximizes airflow to help keep your rotor running cool. They also feature a non-directional ground finish that minimizes thickness variation and helps to extend brake pad life. These dependable aftermarket disc brake rotors offer quality at an economical price.

- Manufactured with multiple alloys for **impressive heat dissipation and performance**
- **Mill-balanced for proper rotor function**; no extra weights are needed
- **Quality validated** for proper metallurgy and correct brake plate thickness
- Rounded radius for **strength**

ACDelco PROFESSIONAL DISC BRAKE ROTORS

ACDelco Professional Disc Brake Rotors provide reliable vehicle braking power and are the ideal premium aftermarket replacement for your GM and non-GM vehicle. They feature a thickness variation that is less than 0.0004 to minimize pedal pulsation and noise and help to extend brake pad life. These rotors meet the SAE standard for structural integrity, with Original Equipment-matched G3000-qualified material delivering guaranteed performance.

- Inspected for balance, resulting in **smooth brake operation and noise reduction**
- Independently tested with Noise/Vibration/Harshness (NVH) and durability/wear, resulting in **high-quality and reliable products**
- Follows original manufacturers' designs for dispersing heat, **helping to prolong pad and rotor life while reducing noise and vibration**

ORIGINAL EQUIPMENT DISC BRAKE ROTORS

Get the GM quality you know and trust with **ACDelco GM Original Equipment Brakes**. Stay with the parts brand your GM vehicle came with and get peace of mind that the fit, form and function are up to the high standards and specifications of General Motors. ACDelco GM Original Equipment Brakes are engineered for virtually every make and model of GM car, light-duty truck and sport utility vehicle.

- Inspected for balance to help provide **smooth brake operation and noise reduction**
- Rust-preventive coating to **help protect against corrosion**
- **GM-recommended replacement part** for your GM vehicle's original factory component
- **Offering the quality, reliability and durability of GM Original Equipment**
- **Manufactured to GM Original Equipment specifications** for fit, form and function
